

Opportunity Brief Template

A compact structure for turning an early lead into a qualified commercial discussion.

IMPORTANT

This template is intentionally short. Its purpose is to establish whether an opportunity is real enough to justify technical, commercial, and partner effort - not to create a full proposal.

1. Opportunity

Customer / organization	
Project / opportunity name	
Country / location	
MRLD contact	Ali Saïd
Date opened	
Target decision / delivery timing	

2. Requirement

Problem or operational need	
Requested equipment / capability	
Quantity / scale	
Key technical requirements	
Environmental / site conditions	
Required standards / certifications	

3. Commercial context

Budget indication, if known	
Procurement route	Direct / tender / EPC / reseller / other
Decision stakeholders	
Competitive context	
Required commercial response date	

4. Delivery context

Destination	
Required delivery window	
Logistics constraints	
Installation / commissioning needs	
After-sales / training expectations	

5. Qualification

Evidence of active demand	
Information still missing	
Primary risk / blocker	
Recommended next action	
Owner and next-review date	

Partner response

Can you meet the requirement as currently understood?

What must be clarified before quoting?

Indicative lead time:

Indicative commercial basis:

Recommended technical configuration / alternative:
